SUMMARY

Highly skilled MERN Stack Web Developer with extensive experience in designing, developing, and deploying web applications. Proficient in both front-end and back-end technologies, with expertise in creating intuitive user interfaces and robust server-side architectures.Demonstrated ability to use modern JavaScript frameworks for responsive and scalable applications. Strong collaborator in cross-functional teams, dedicated to staying updated with industry trends to enhance development practices and deliver innovative solutions.

SKILLS

Languages: HTML, CSS, JavaScript, Node.Js, MongoDB.

Frameworks: Express.Js, Bootstrap, React-Bootstrap.

Tools: Git, Git-Hub, Postman.

Libraries: React.

PROJECTS

Project 1	**FullStack-CRUD**	**github.com link**

FullStack-CRUD

My project is a full-stack web application built using HTML, CSS, Bootstrap, and JavaScript for the frontend, and Node.js with MongoDB for the backend. The application features a responsive design with an intuitive user interface. It enables users to register, log in, manage their profiles, and perform CRUD (Create, Read, Update, Delete) operations. The backend handles user authentication, data storage, and server-side logic. MongoDB is used for efficient and scalable database management.

EDUCATION

2018	**St. Thomas Matriculation Higher Secondary School** 10th Std	**School**
2020	**St. Thomas Matriculation Higher Secondary School** 12th Std	**School**
2023	**The New College** Bsc.Information Technology	**College**
